

REPORT OF EXAMINATION OF ALASKA SALMON STREAM

DEPARTMENT OF COMMERCE
BUREAU OF FISHERIES

Name of stream Unnamed creek (Some say Loveless River) Date examined Aug. 25, 1930 (and other times)
 Location From the east, about 5 miles north of Barrie Creek.

Approximate length 10 miles (reported) Width 22 ft. Depth 10 inches
 (at last time of examination)

Condition and stage (whether clear, high, low, etc.)

Medium high. Water clear with a brownish tinge.

Lakes, if any, size, character, and whether accessible from sea

Salmon run (heavy, light, average, etc.) Salmon run above average.

Date and duration of run of each species Pinks began August 4,--run not ended; Chum run began Aug. 4,--run not ended.

Estimated number of each kind of salmon on spawning beds, or in stream

Pinks 55,000 Runs of pinks and chums not ended; run of cohos not begun.
Chums 4,000

Former size of runs of each species and evidence of depletion, if any

Pinks last year 45,000 (From memory)

Natural barriers and whether removable No barriers as far as stream has been examined by watchman (About $3\frac{1}{2}$ miles from mouth of stream)

Where markers are placed 500 yards from mouth of stream.

Remarks, sketches, etc.

PETER PETERSON, Stream Watchman

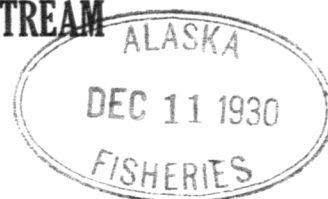

(Name and title of employee making examination)

Send original to Washington office, one copy to Seattle office, and one copy to Juneau office.

Use reverse side if additional space is required, or explanatory sketches are made which can not go on this side.

REPORT OF EXAMINATION OF ALASKA SALMON STREAM

DEPARTMENT OF COMMERCE
BUREAU OF FISHERIES

Name of stream **Barrie Creek** Date examined **Aug. 26, 1930** (and other times)
